Take your career to the next level: **Networking | Education | Collaboration**
REGISTER TODAY!

**ANNUAL CONFERENCE
SEPT 12-13, 2017**

Curtis Culwell Conference Center
Dallas, Texas

ISCP's 4th Annual Conference is Back and Better than Ever!

Once again we're bringing together loss prevention, security, and protection professionals working in the global supply chain for a two-day jam packed event. You'll hear from industry veterans and get the latest trends in supply chain security, industry theft, global trends, and investigation. Don't miss this opportunity to network and catch up with industry peers and thought-leaders. There will be a wide range of speakers from both private sector and public law enforcement who'll discuss issues currently affecting the global supply chain. You'll come away with the knowledge and tools needed to stay ahead of the curve, to anticipate disruption, and to prevent loss.

Who Should Attend?

- Professionals responsible for protecting and securing goods and services within the supply chain.
- Individuals in Public sector and law enforcement.
- A vendor in transportation, asset protection, and loss prevention.

Last year, we had 175 attendees and the feedback was tremendous. Check out these [keynote presentations](#) from last year's conference.

The Future is NOW in Supply Chain Security

This year's conference will take a deep dive into innovation and the changing landscape of LP and supply chain security. We're all hearing about retail's challenges and its significant impact on the global supply chain. Global threats, cybersecurity, and omnichannel distribution are also disrupting and transforming our industry. As LP and security professionals are we ready for it? Will our voice be heard in the C-suite?

In today's world, securing and protecting your company's brand, people, and goods and services has never been more crucial to survival. The lines are blurred and LP professionals have the opportunity to lead and be accountable for this integral function within their organization.

Our speakers will share how their companies are adapting and innovating. You'll learn how to formalize LP strategies, implement cost-saving programs and drive change and get C-level buy-in.
